

# Editor's message

To the BCS community,

The yearbook is an endeavor that takes months of effort and hard work to accomplish. Countless hours go into collecting images, creating and editing the 148 pages. This year's album is made possible by a handful of people who deserve to be recognized!

First, I would like to thank my Yearbook Committee for the time they took out of their schedules to attend school events to take pictures and the time they put in to creating the pages. Secondly, I would like to thank our Representative Caroline and the Friesens team who have been to support our ideas and offer any help when it was needed. Finally there is one person that truly stepped forward to help complete this endeavor, Mme Turcotte. I apologize for any unexpected obstacles that may have arose. Very few can understand the hours that you have had to put into this book. You have my sincerest gratitude and thanks for completing this book in my absence!

I hope you all can enjoy the memories that this book has captured from the 2017-2018 school year.

Thank you all once again!

Tyler Gordon
